Receivers Ready For Deployment

Compaction Receivers

- **FleetGenius** manufactures compactor receiver containers in a variety of sizes and designs to best fit the application.
- Octagonal, Rectangular, Heavy Duty, and Specialty Receivers to meet standard and custom specifications.
- Standard "Octagon" Receivers are recommended to promote a "rolling motion" inside during compaction resulting in full containers and maximized payloads.
- **"Bakers Guard" Protective Coating** is sprayed on the understructure for improved durability.
