Apt Compactor Specs and Features

FleetGenius® Apt Compactors are specifically designed to provide containment in a very small footprint. Ideal for a Hi-Rise Residential Building where trash is chute fed. The compactor packs in a mobile receiver container which can be rolled to the street for pickup. The FleetGenius® 3 point latching design ensures positive and durable connection to the receiver container. For added safety and ease of use, opt for The Glide Wheel option, which incorporates a brake system on the receiver container.

FleetGenius® Secure Side Latch Lever, a safe and reliable container locking system

- Ensures container is fully engaged and locked down
 - Prevents container jumping off connection when under pressure
- Can be installed on either side and can be moved to opposite side with standard tools
 - Simple retrofit latch pocks can be ordered to convert old containers

FLEETGENIUS® AT A GLANCE

At FleetGenius®, we've built our reputation on listening to our customers first, understanding their needs and then designing quality products that meet or exceed their expectations. FleetGenius® Apartment Compactors are ruggedly constructed to exacting standards to provide you with years of trouble-free performance without gimmicks or add ons you didn't ask for. In short, our compactors just work.

Genius? No. FleetGenius®.

WHO ARE WE?

- FleetGenius® has grown to include multiple environmental services companies with a combined experience spanning decades.
- Along with manufacturing our own line of commercial equipment, we also offer commercial container management that includes: inventory management, cart poly-welding, container washing, and more!
- Although we do deliver equipment via our own fleet, don't be fooled by our name! FleetGenius® is not a logistics company - we just support them!
