& Soft Shift Hydraulics

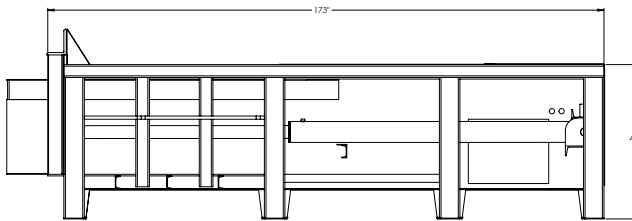

# Stationary Compactor Specs and Features

FleetGenius® Stationary Compactors, sometimes called a breakaway compactor, is a heavy-duty machine that compresses dry waste & recyclables to reduce their volume for disposal. Our Stationary Compactors are available in sizes ranging from 2 to 5 cubic yards. Stationary compactors are built separate from the compaction container, and is bolted to the ground during installation. When it is time for disposal, the compactor remains in place, while the container detaches and is hauled away.

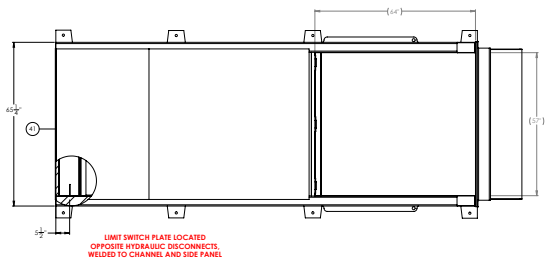

With their powerful hydraulic systems and sturdy construction, breakaway compactors can help businesses save money on disposal costs, and reduce environmental impact, improving overall waste management efficiency. Sales, Service, Technical Support, Delivery, Installation and Parts are all available via our eight strategically located service centers within the US. FleetGenius® is your one-stop shop for all your compactor needs.

# FLEETGENIUS® AT A GLANCE

At FleetGenius®, we've built our reputation on listening to our customers first, understanding their needs and then designing quality products that meet or exceed their expectations. FleetGenius® Stationary Compactors are ruggedly constructed to exacting standards to provide you with years of trouble-free performance without gimmicks or add ons you didn't ask for. In short, our compactors just work.

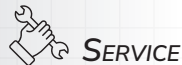

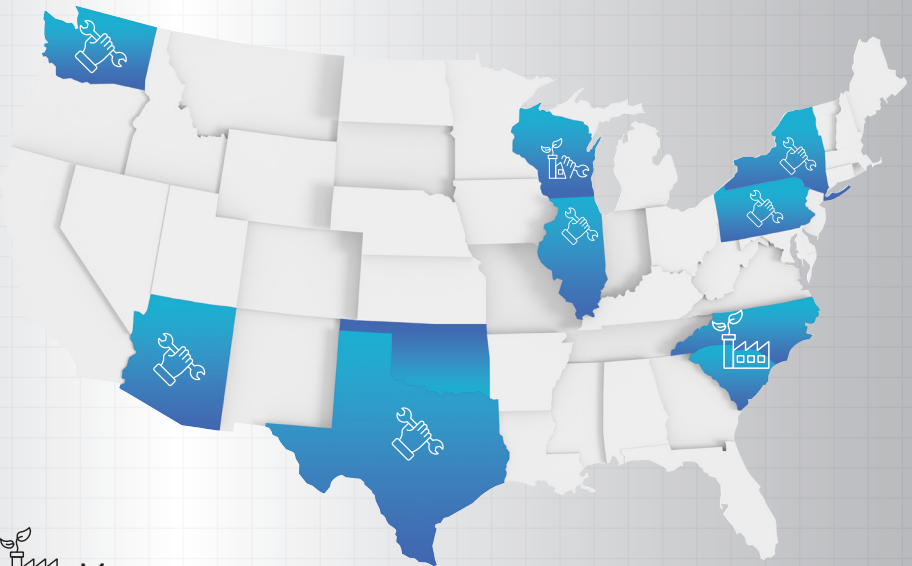

Genius? No. FleetGenius®.

## WHO ARE WE?

- FleetGenius® has grown to include multiple environmental services companies with a combined experience spanning decades.
- Along with manufacturing our own line of commercial equipment, we also offer commercial container management that includes: inventory management, cart poly-welding, container washing, and more!
- Although we do deliver equipment via our own fleet, don't be fooled by our name! FleetGenius® is not a logistics company - we just support them!
